

Dear Mr. Chip Comins,

I would like to thank you and AREDAY for participating in the Connect4Climate initiative in 2011.

Your engagement helped us reach a global community of nearly 200,000 who care about climate change. Leading up to COP17 in Durban, youth submitted more than 680 photos and videos to our competition. Connect4Climate was then able to share these messages--covering everything from the impact climate change has on communities, local initiatives to lower greenhouse gas emissions, and innovative ideas to mitigate the impacts of climate change--with press and participants at COP17.

We could not have made it this far without your partnership, and we hope you will join us as we refocus on the Rio+20 Earth Summit in June and the 18th COP in November.

Thank you,  
Lucia Grenna
